

2020

1st SEMESTER GEOGRAPHY GENERAL

Paper: CC/GE-1

PRACTICAL EXAMINATION

(Physical Geography Lab)

The figures in the margin indicate full marks

Candidates are required to give their answers in their own words as far as practicable

1. Write down any two characteristics of the following rocks and minerals. $2\frac{1}{2} \times 6=15$
 - a) Limestone
 - b) Conglomerate
 - c) Quartzite
 - d) Chalcopryrite
 - e) Galena
 - f) Mica
2. Construct a Relative Relief map (10/12 cm) from the given data of Topographical map No. 73B/16 (Singbhum & Sundargarh Disrict) and interpret the map. $10+5=15$

Sl.No.	Grid Reference	Highest Elevation(m)	Lowest Elevation(m)
1	A1	340	179.7
2	A2	400	180
3	A3	681	200
4	B1	380	175.9
5	B2	324	168
6	B3	565	176.5
7	C1	480	200
8	C2	600	200
9	C3	594	180
