## 2021

## GEOGRAPHY - HONOURS

## Paper : CC-7

(Statistical Methods in Geography)
Full Marks : 50
The figures in the margin indicate full marks.
Candidates are required to give their answers in their own words as far as practicable.

## Use of Scientific Calculators is allowed in this Examination / Paper.

## Category - A

Answer any five of the following questions.

1. Define inferential statistics.
2. Distinguish between primary and secondary data and mention one example of each.
3. Which of these is a ratio, which is ordinal, which is interval and which is nominal scale?
(a) Religion
(b) Income Level
(c) Salinity
(d) pH .
4. A box contains 15 Quartz specimens and 20 Galena specimens. If two minerals are drawn from the box at random one by one without replacement, what is the probability that this first mineral is Quartz and the second mineral is Galena?
5. If mean of the distribution is 56 and $\Sigma \mathrm{fx}$ is 2520 , where ' x ' is class mark, determine the total frequencies (f). Mode can be represented on which diagram? $1+1$
6. What is frequency density and when is it used? When is mean, median and mode identical?
7. Given the following data series representing number of households in ten different villages : 260, 375,574, $656,876,503,391,280,160,101$. Determine the measure of central tendency which is also a partition value.
8. Differentiate between normal and skewed frequency distribution.

## Category - B

Answer any four of the following questions.
9. What is the difference between absolute and relative measures of dispersion? Give example of each and state which is better and why.
10. (a) What do you mean by Line of Best Fit?
(b) What is the equation / function that represents linear regression and non-linear exponential or logarithmic regression for bivariate data?
11. In an analysis of fertilizer use and food production given for 7 states, it was found that:
$\Sigma x=20, \Sigma y=30, \Sigma x^{2}=68, \Sigma y^{2}=136, \Sigma x y=93$. Determine the Pearson's correlation coefficient and test the hypothesis that the computed correlation coefficient is not significantly different from zero at 0.05 level of significance. (Refer to Supplied Table A1 - Critical Value of Student's ' $t$ ')
12. You are given a data on exports, both (quantity and value) of Indian jute to UK and USA from 2010-2015. Prepare a suitable tabular representation by constructing a block table.
13. What is a frequency distribution? Explain the method of formation of grouped frequency distribution table.
14. The following table gives the distribution of land in 2 mouzas. In which mouza the land is more equally distributed?

```
5
```

| Size of the holding <br> in acres | No. of Households |  |
| :---: | :---: | :---: |
|  | Mouza - I | Mouza - II |
| $3-6$ | 2 | 3 |
| $6-9$ | 42 | 28 |
| $9-12$ | 78 | 292 |
| $12-15$ | 135 | 389 |
| $15-18$ | 349 | 212 |
| above 18 | 100 | 59 |

## Category - C

Answer any two of the following questions.
15. What are the differences between Census and Sample data? What are the advantages and disadvantages of simple random sampling?
16. (a) On the basis of data provided in Table 2, draw a time series graph to show the Fish Production volume in West Bengal.
(b) Compute and draw the trend by four year moving average.

Table 2: Fish Production (in Thousand Metric Tonnes) in West Bengal

| Year | Fish Production (in Thousand Metric Tonnes) |
| :---: | :---: |
| 2009 | 1650.37 |
| 2010 | 1701.82 |
| 2011 | 1671.42 |
| 2012 | 1617.32 |
| 2013 | 1580.65 |
| 2014 | 1490.02 |
| 2015 | 1472.05 |
| 2016 | 1443.26 |
| 2017 | 1505.00 |
| 2018 | 1484.00 |

17. (a) What do you mean by degrees of freedom?
(b) A random sample of 500 people revealed the following details regarding distribution of salary across gender (Table 3). Using Chi-square test determine whether there is any relationship between gender and the level of salary and whether the relationship is significant at $5 \%$ level of significance. (Refer to Supplied Table A2 - Critical Values of Chi-Square)
Table 3 : Educational Attainment Levels and Salary Levels of Population

| Gender | Low Salary | Medium Salary | High Salary | Total |
| :--- | :---: | :---: | :---: | :---: |
| Male | 40 | 90 | 120 | $\mathbf{2 5 0}$ |
| Female | 90 | 100 | 60 | $\mathbf{2 5 0}$ |
| Total | $\mathbf{1 3 0}$ | $\mathbf{1 9 0}$ | $\mathbf{1 8 0}$ | $\mathbf{5 0 0}$ |

18. What do you understand by Correlation coefficient? From the following data, compute the linear regression equation required for estimation of ' $y$ '.

| Annual Rainfall <br> (in cm) | Yield rate <br> (in kg) |
| :---: | :---: |
| 183.0 | 2687 |
| 201.5 | 2503 |
| 146.5 | 1979 |
| 153.0 | 2527 |
| 151.4 | 2340 |
| 164.5 | 2036 |
| 157.1 | 2836 |
| 175.3 | 2446 |
| 103.3 | 1812 |
| 150.0 | 2360 |

(5)

V(3rd Sm.)-Geography-H/CC-7/CBCS

|  | Significance level (one-tailed) |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 0.05 | 0.025 | 0.01 | 0.005 | 0.00005 |
| Degrees of <br> Freedom | 0.1 | 0.05 | 0.02 | 0.01 | 0.001 |
| 1 | 6.31 | 12.71 | 31.82 | 63.66 | 636.62 |
| 2 | 2.92 | 4.30 | 6.97 | 9.93 | 31.60 |
| 3 | 2.35 | 3.18 | 4.54 | 5.84 | 12.92 |
| 4 | 2.13 | 2.78 | 3.75 | 4.60 | 8.61 |
| 5 | 2.01 | 2.57 | 3.37 | 4.03 | 6.86 |
| 6 | 1.94 | 2.45 | 3.14 | 3.71 | 5.96 |
| 7 | 1.89 | 2.37 | 3.00 | 3.50 | 5.41 |
| 8 | 1.86 | 2.31 | 2.90 | 3.35 | 5.04 |
| 9 | 1.83 | 2.26 | 2.82 | 3.25 | 4.78 |
| 10 | 1.81 | 2.23 | 2.76 | 3.17 | 4.59 |
| 11 | 1.80 | 2.20 | 2.72 | 3.11 | 4.44 |
| 12 | 1.78 | 2.18 | 2.68 | 3.05 | 4.32 |
| 13 | 1.77 | 2.16 | 2.65 | 3.01 | 4.22 |
| 14 | 1.76 | 2.15 | 2.62 | 2.98 | 4.14 |
| 15 | 1.75 | 2.13 | 2.60 | 2.95 | 4.07 |
| 16 | 1.75 | 2.12 | 2.58 | 2.92 | 4.01 |

Table A2 - Critical Values of CHI-Square

| Values of $\chi^{2}$ with probability P of being exceed in random sampling $\mathrm{v}=$ number of degrees of freedom. |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 0.20 | 0.10 | 0.05 | 0.02 | 0.01 |
| 1 | 1.64 | 2.71 | 3.84 | 5.41 | 6.63 |
| 2 | 3.32 | 4.61 | 5.99 | 7.82 | 9.21 |
| 3 | 4.64 | 6.25 | 7.81 | 9.84 | 11.34 |
| 4 | 5.90 | 7.78 | 9.49 | 11.67 | 13.28 |
| 5 | 7.29 | 9.24 | 11.07 | 13.39 | 15.09 |
| 6 | 8.56 | 10.64 | 12.59 | 15.03 | 16.81 |
| 7 | 9.80 | 12.02 | 14.07 | 16.62 | 18.48 |
| 8 | 11.03 | 13.36 | 15.51 | 18.17 | 20.09 |
| 9 | 12.24 | 14.68 | 16.92 | 19.68 | 21.67 |
| 10 | 13.44 | 15.99 | 18.31 | 21.16 | 23.21 |
